FRIENDSHIP

Whether it

was laughing together about our French teacher's sagging nylons or crying on an available shoulder, our friends were always there. Whenever we had news to tell . . . such as the latest "score" friends were there to lend a listening ear, as well as to offer advice. We saw each other at school, but still spent an hour on the phone the same night (anything to avoid our homework). It was our friends who lent us lunch money stood up for us, sent us balloon grams, we knew they could be counted on. Friendship was indeed a precious gift, and one that we the Artesians are thankful for.

WORKING

You rushed home

from school, and peeled off your sense of identity and searched through the hamper for your cleanest polyester uniform. Welcome to the world of work an imaginary neon sign flashed through your mind. Ugh! you asked youself why do I do it! For many the expenses of a car, gas, insurance, and maintenance, was enough to keep anyone in debt. A treasured wardrobe lead some to the world of work, where they discovered how valuable clothes were to them. Others went to work just so they would have money for the weekends. Whatever the reason, it was a big part of many afternoons and was a big part of many Artesians' lifestyles. Whether your job was somthing to tolerate or enjoy, it was a source of income for us all. For many Artesians life was expensive.

SPIRIT
You stayed up

Almost all night making confetti for the big rally the next day. After all it was class competition and you wanted your class to be the proud owner of a spirit stick. The alarm went off but you slept through it. 45 minutes later an excited parent ran into the room and shouted "Wake up, Wake up" you're gonna be late for school. You jummped out of bed, put your school colors on, and dodged a passing car to make it to the ralley on time Whew. You reach the gym just in time to catch a glimpse of the Pioneer Patrol as they finished their routine. The commissioner of spirit Patty Flowers announced the start of class competition, you screamed and yelled so loud, you suffered from laryngitis the entire week.

WEEKENDS

Day: Any typical Friday

Setting: An Artesian weekend. The bell to your last class had finally rung. At last, one more week is over and what are weekends for anyway to celebrate of course! You went home from school, put a load of wash in the washer, fixed yourself a snack, and sat down in front of the tube. Hey it's Tom and Jerry! Suddenly the phone rang, you answered it with an annoyed hello (after all they did interrupt Tom and Jerry!) A friend wants to know about tonight. Well, we could go to a pardee, cruising, or dancing. But however we chose to spend our weekends, we the Artesians, never seemed to get enough.

The Artesian

Nerd Control Staff searched our campus for that one ideal nerd whom we changed into Artesia's heartthrob: Shane May! He had a total makeover from head-to-toe. First we got rid of the glasses, and gave him contacts. Then came a nice clean shave. Afterward we order him into the shower, and gave him a quick lesson on Fashion! A miracle? Well, almost.

LIFE IN THE . . .
SPOTLIGHT

Yes that's you, an Artesian

Celebrity in your own time! And being an Artesian you have what it takes! Look at you, talk about active. The Artesians took the cake for involvement, spirit, talent, etc. And it was Artesians like yourself that made our school an exemplary one. We were offered a wide variety of activities in which to partake in and become more involved. Fashionable? Of course, being in the spotlight required fashionable attire! But with fame came responsibility for Artesians and responsibility and achievement go hand in hand. Way to go Artesians . . . we've got it made!

FOCUSING ON . . .

FASHIONABLE ARTESIANS

The styles and fashions

of the year were numerous, with each appearing very unique. Each style represented ones personality and preference. However you dressed it was probably following a trend or showing a flair of certain originality. Some popular items were Converse All-Star High Tops, panadores, karate shoes, and Gotcha shorts. Clothes were an important part of your look but accessories accentuated it and pulled it together. By wearing dangling earings, wrapped hip belts, breaking jackets, unique jewerly, wide belts, and thin ties, Artesians set themselves apart. Even though we knew Artesians most everyone tryed to stay with the idea of being fashionable.

James,
Don't get too crazy. I hope to see you next year at Artesia.
love ya,
Rose

WHAT'S UP IN MUSIC?

Imagine yourself lying

on the beach. The hot sun toasting your body, the salt air is breezing through your hair. You listen to the waves coming in and the people nearby. Ah, you think to yourself "this is the life." You came equipped for your day-long beach escapade: 1 beach chair (with the Mickey Mouse watch strapped to the arm so you could perfectly time your tan), 1 favorite green and orange Modern Art interpretation of a beach towel, 1 bottle of *Hansins* soda, 1 *Big Stick*, 1 issue of the latest *Madamoiselle* or *Hot VW's magazine*, 1 bottle of suntan oil and your prize get-toblaster! Well, now, the beach wouldn't be the beach without some tunes, now would it? Whether you tuned into *KMET, KROQ, KLOS, KIIS, KIQQ, KKHR, KUTE, KBIG, KLAC, KNAC, KNOB, KDAY, KFI, KBRT* or the *Mighty Six Ninety* you could always rely on your radio to give you the sound you desired. Whether it was relaxing or headbanging, it sure would have been a long and boring summer without it!

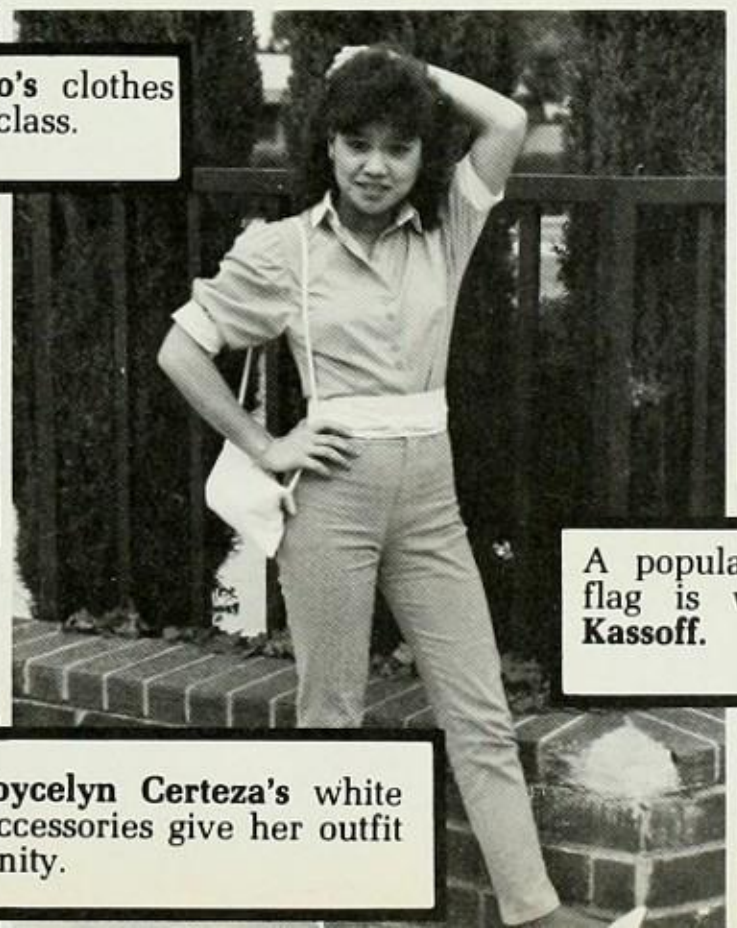
A LOOK AROUND ARTESIA

Almost anything

went on at Artesia High School. Talk about variation in fashion, many went for the latest trends, others remained conservative, still some craved uniqueness. There was a wide variety of fashion at Artesia High School. Every Artesian dressed the way they thought looked best.

Helen Moon displays a playful pose.

Robert Tamayo's clothes have a touch of class.



Joycelyn Certeza's white accessories give her outfit unity.

HUNGRY KIDDIES

You anticipated all day to

sink your teeth into some hearty Artesian food! Hungry? Maybe not? Many Artesians spent their lunches in different ways. Ranging from going to the library, sneaking off campus, attending club meetings, or going home. Many Artesians "shined school food and ate elsewhere."

Did some students find Artesia's closed campus policy a challenge? If not what tempted certain adventurous Artesians to sneak off campus to Yogurt Plus, Taco Bell, an abandonded house or the park? Yet for others they were content to eat at their own special "spot" whether it was in front of the library, in the P.E. locker and computer rooms or at the victory bell we enjoyed ourselves, our friends, and for some our Lunch!!

What you said about Artesian food:

"It's o.k."

"The cafeteria is just Munchos and Hostess, but the hungry hangout has radical pizza."

"Don't ask."

"I like the fries with mustard on 'em!"

"I'd rather go hungry."

The only thing that tastes good is the stuff from the vending machine and then it costs 45¢ for a Snickers."

YOUR OUT FOR THE DAY!

As the day

lingered on and your last class arrived you anticipated for the bell to ring. At last you thought, you could go home and do your own thing. Whether you chose to remain at school or go to the library to finish your homework it was your time (finally) to spend how you chose (unless of course you had detention). Some spirited Artesians went to athletic events such as basketball or baseball games, swim and track meets, while others practiced for such events. Then there was the daily crisis of getting home! Some walked, mooched a ride, or called home, while the lucky and few drove home in their cars.

At last, your home! You kicked back, watched T.V. talked on the phone or hit the sack! Sound nice? Well for some of us with jobs it sure did! Yes, those afterschool hours were bliss now weren't they?

THE DAY OF THE MASQUERADE

For most people Halloween is a day to dress up in a spooky costume and to others it is a day to live their fantasies. Here at Artesia High, students entered the school grounds dressed in a variety of costumes. There were walking pumpkins, flying bumble bees, and television's tough guy Mr. T. Each individual's costume adds a touch of the person's personality. Although these people looked strange for this one day it was a relief to know they were our friends and teachers of Artesia High School.

A NIGHT TO

Looks are not everything!

Maria Alvarez:
The moment they announce my name as being freshman princess, I was so surprised! I did not think I would have a chance for this great honor. I just wish people would stop treating me differently now that I am princess. They react as if I am very special when actually they are the special people.

Caroline Rioja:
I was very honored for being elected for sophomore princess. My family and friends helped me a lot through this experience, and I am very grateful to them for being there when I needed them. It has been a great year for me. I wish every girl could experience being princess for a year as I have.

Lori Johnson:
Being able to represent the junior class as their princess was a great honor. It was for them that I was nominated. I wish I could thank each person individually but since I can not I will do so now, "Thank You Junior Class!"

WINTER ROSE

A very magical thing occurred in the

Long Beach Hyatt Regency's spacious new ballroom, on December 19th, 1983. It was the beginning of the "Winter Rose", Artesia's annual Christmas Dance. The evening was filled with excitement and romance, with a little aid from Romantic Rhythm and Kalva Productions.

As the evening continued you could see couples dancing, talking, eating, and at one very special moment you could see a very excited Snow Queen and King. That special honor went to *Carol Bradshaw* and *Lee Urias*. At the end of the evening you could feel the happiness radiating out of the sponsors Girls' League, at the success they had created at the "Winter Rose"

Dances — when some

people heard that word, they thought yuck! Others thought alright another dance at Artesia. These are not your regular school dances where everyone had a date and the D.J. only played slow songs. No way! Not at Artesia. This year introduced us to three new varieties of dancing; breaking; and the E.T. Each dance has a different mystique about it and the favorite of most Artesians was break dancing, which involves acrobatic moves, and strong backs. Out of all our dances, the New Year's Jam, was the most successful. It had two D.J.'s, and also a breaking contest. This year proved to be a great year for dancing.

DELIRIOUS

Why does the head

line read "Delirious?" Because it describes the way things happened for the Pep Flag squad. Things happened so fast that in all the mix ups, they occasionally ended up slightly Delirious. Being the first squad in seven years was not easy, not by a long shot! They learned all they could at camp, gaining a Unity plague, a Superior trophy, and to top it off they were the smallest Pep Flag squad there. Once back at school they experimented and came up with more great moves. Then they combined all they had learned and put on an awesome show. Although it was the first year for all, they proved that with a little effort and Unity, anything was possible, even being a number one squad!

UNITY

After winning several

awards during cheerleading camp, it was obvious that the J.V. squad was united. Their two "Superior Trophies" and one "Excellent" award was just the beginning of a successful year. According to **Robin Williams,** head cheerleader, the squad showed great unity throughout the year. They seemed to overcome most of their obstacles just by sitting down and discussing their problems. Since they had this unity, they were able to perform under pressure and get everything accomplished that they had set out to do.

STANDING TALL

Always act-

ive is a good word to describe the **Tall Flags** squad. Practicing for halftime shows ... rallies ... and competitions. It seemed like practicing was endless that and performing. Yet, they still managed to stand tall at competitions and bring home various awards for their school. Friendships gained and the thrill of competing ... and winning made it all worthwhile.

COME ON . . . BEAT IT!

What's bigger, strong-

er, and better than ever before? You guessed it Artesia's very own Rifle Squad! Performing with the band was a major function of this squad but they also performed at rallies and half time shows to such routines as **"Masquerade", Come on Feel the Noise,"** and **"Beat It."** Talk about winners! These girls won in every competition they entered, and they never placed lower than second. Led by co-heads **Carol Bradshaw** and **Rhonda Hammond** the squad gave their all, way to go girls!

What's only 2 years old,

somewhat large in size and usually spotted in red, white, and black? The Artesian **Dance line!** These girls spent long hard hours preparing for competition and half-time shows. This effort paid off in impressive performances. Co-captains **Liz Gonzalez** and **Michelle Ankle** led the eight other girls with their routines. Dance Line worked with the band on the field and during competition, but only eight of the ten girls performed on the field. Yes, Dance Line did quite well, but that really isn't a surprise! Now is it?

heard of the new club on campus? . . . It is Pioneer Patrol, a dancing club for anyone who likes to dance to funk music.

They have performed for Artesia High School games and rallies, and make-up their own routines. This newly added performing club is very entertaining and gives us a chance to enjoy funk music.

Projecting on Athletics

Athletics were a channel of

student life in which many students could excel in. You experienced self-satisfaction that came from giving it your all for yourself and your school. Not to mention the pride you felt when you or your team proved victorious.

After all we did excel in team sports. The Boys' Vs. Football and Basketball teams went all the way to CIF! While the J.V. and frosh teams were *league champs* Artesia's Fast Ladies kept up their respectable reputation as they went to CIF for the 11th year in a row. Water Polo also was back stronger than ever and with a renewed interest in water sports.

All this took effort! Not to mention hours of hard work and endurance for many Artesians.

We projected on athletics by planning to give our all in all of our athletic endeavors.

More Than Just a Job

Coaching is a hard

job that just not anyone can do. Taking both time and patience, a coach must teach and guide athletes to excel in the sport they are participating in. Inside that tough exterior, a coach is a concerned person who cares for each player. Although coaching is not all peaches and cream, it is very reward-ing and a challenge.

The First String

After playing four

years of football **Shannon Jacobs** was voted all league and most valuable offensive player as well as all area southeast player. He played three years of varsity and passed for approximately 1400 yards his junior year. Although **Shannon** was best known as being the varsity starting quarterback for two years. He also participated in two other sports, basketball and baseball. Four years of basketball, including two years of varsity, finally brought him the title of all league. Lastly, the three years of baseball brought him plenty of pleasure and recognition.

We would like to congratulate **Shannon Jacobs** on his outstanding achievements.

Shelly Bowcutt was

voted athlete of the year because of her outstanding abilities in basketball and softball. Basketball was **Shelley's** most rewarding sport. Her remarkable four years of varsity basketball has brought her the honor of all league and all **C.I.F.** player for three years in a row. **Shelly** was also voted the 1984 most valuable player in basketball. **Shelly's** athletic career went on to play three years of softball including one year of varsity.

The 1983-84 yearbook staff would like to congratulate **Shelly Bowcutt** for the outstanding achievement in Artesian Athletics.

"Tower of Strength"

Open your ears, can't

you hear it, the helmets crashing . . . players growling, roaring fans, Cheerleaders yelling chants, arguing between the coaches and referee, cussing between members of the opposite teams. These are the sounds of the Artesian "tower of strength," otherwise known as Artesia's own Varsity Football team! Yes, we were loud but the "Big Red Force" was on the move so watch out! But only a football player knew the feeling of having a six ft., 200 pound linebacker after you who will kill to get the ball.

Excitement was in the air

as each player pulled together and gave their all for the team. With 7 returning all leaguers **Shannon Jacobs, James Walker, Vic Malone, Fale Manu, Sanford Brown, Keith Schulist,** and **David Vela,** the Artesian force went to CIF. The team was led by **Shannon Jacobs** who was the **Suburban League Offensive Player of the Year in '82.** (Not to mention the best passer in Artesia's history.) He was often seen praying before each game. It was largely **Shannon** who boosted the **Big Red** team's average to 22.6 points per game. It was not until **Shannon** got sacked and suffered from a broken collarbone that the team's success began to falter.

League Champions

The 1983 version of the

Artesia High J.V. Football team was one of excitement, surprise, and togetherness. With great satisfaction of an overall 9 and 1 record, and a perfect 5-0 league mark, this was a fine co-ordinated machine. Coaches **Weiss** and **Guggiana,** with aid of assistants **Goddard** and **Raphael,** molded this group of fine athletes into a solid team. On offense the J.V. Pioneers were led by the crunching runs of **Al Rodriguez, Tim Armenta,** and **Peter Chen.** Quarterback **Scott Wakimura** found his favorite receiver **Todd Guggiana** (30 catches and 7 touchdowns) for many big plays. Opening big holes for the backs were leading blockers **Vince Castillo, John O'Brien,** and **Rob Barger. Jess Oller** won two big games with his fine field goal kicking. To be successful in football, you have to have a strong defense. The J.V.'s defense bent, but would not break. Top tacklers were linemen **Greg Rasar** and **Steve Smith;** linebackers **Ron Flower** and **Rene Duran;** safeties **Dave Walls, Rich Kizzie,** and **Mike Perez.** Blending their athletic talents with a great attitude, this year's J.V. squad proved that they were all winners.

Football hopes were

bright for the freshman team at the start of the season. And bright they proved to be, as the Pioneers rolled to an overall 9-1 record including an undefeated league record of 5-0. A record that brought a Suburban League championship to a team that deserved the praise of Coach **Stapp** and his assistants **Bill Brown** and **Dennis O'Donald.** The Pioneers gave every team trouble, including a talented Cerritos which handed Artesia their only loss of the year. The potent offense was led by the running of **Vic Matos,** and the passing of **Brian Smith.** Rounding out the attack were **Jason Armenta,** and **John Urias,** who did the receiving. WINNING COMBINATION

Artesia Varsity Wrestling has been doing very well this

year. The wrestling team has won every match with the exception of Mayfair. Here are the names of the varsity wrestlers: Bill Parker, Mike Davidson, Randy Davidson, Gus Banuelos, Robert Copeland, Bill Furnish and Dino Elipulus.

Bill Parker is the Team Captain and League Champ. He was also awarded "Mr. Olympian" and "Most Valuable Wrestler." Bill Parker also holds the school record for falls with 21. Mike Davidson was awarded "Most Improved" and Robert Copeland placed 6th in 2A CIF. All the Members contributed a lot to the team this year.

Junior Varsity Wrestling is at its best! The young but talented Frosh/Soph J.V. team had only one loss to Mayfair, but as far as their other opponents, Artesia had "pinned" their way to second place in Suburban League. The team was led by two outstanding wrestlers: Max Young and Wolf Schlict. The other team members were: Jon Davidson, Mike Peterson, Philip Madrid, Philip Jackson, Ralph Rodriguez, Mike Butcher, Roger Warner, Richard Strong, David Valvuerde, Tim Shimkus, Ray Aragon, Guerimo Palamo, Greg Generis, James Deyoe, Joe Nazarowski, and Chuck Guidotti.

SPIKE IT!

Spike it! This term

probably went through the Varsity Volleyball team members' minds a number of times through the season. During the games the players waited for the other team to try to spike it so we could return the ball and score.

The Varsity team did not do as well as anticipated but they did make Artesia proud with a fourth place tie in the League. The team pulled together when it was needed and worked with all their efforts. The team was in contention for CIF play-offs except they had a little bit of misfortune in their last few games and were unable to attend the play-offs. In all, the Varsity volleyball team had a challenging season and ended it with a rewarding standing in the league.

JUMP

In the game of Volleyball

you can not stand around, you have to run, bend, stretch and of course jump. You have to time the ball and set it up for your teammates and that's just what the J.V. team did.

The J.V. team was a relatively new team this year as many of the team members had not worked together before. The team had a successful pre-season and ended the season placing fifth in the League. The team members made new friends and gained valuable experience as the season progressed. The team may have a promising future.

Leading the team offensively were **Kelly Rasar** and **Stacy Sugimura** with strong support from guards **Mike Datcher, Shannon Jacobs,** and **James Walker.** These plus center **John McAfee** pulled together to surprise a lot of people by coming out on top. The key to this year's success was **Coach Ackerman's** ability to teach the players how to play together as a team.

A Surprising Season

A famous player named Yogi Berra

once said this of a baseball game: "It ain't over, 'til it's over!" How true this adage pertained to the 1984 varsity baseball team.

Returning only three starters from the previous season, **Coach "G"** and **Coach Weiss** had to mold a new unit. The early pre-season found the Artesians searching for the right combination. The hitting and fielding of seniors **Guy Montgomery, Dave Vela, Chuck Rodriguez, Jeff Grant** and **Jim Rosas** carried the Artesian nine in the early going. As league began, new heroes developed, especially the play of sophomores **Todd Guggiana, Mike Lau,** and **Gunnar Seedborg.**

The turning point for Artesia seemed to be the **Bolsa Grande Easter Tournament** as the Artesians took second place out of sixteen teams. Returning to league play, the Artesians got hot and managed to gain a C.I.F. berth. Everyone contributed, particularly **Ty Ortiz, Kyle Beeson, Vic Malone,** and **Kelly Rasar** off the bench.

As the play-offs started, Artesia could only dream of reaching the semi-finals like last year, but the odds seemed against the Artesians. Miracles do happen, as the Artesia unrated nine shocked **Capo Valley** (the number one seeded team) 5 to 3 to advance. **Guy Montgomery** sparkled on the mound. Clutch hits by **Rosas** and **Rasar** pulled off the upset.

Game number two of the play-offs found the Artesians trailing **Irvine** in the late innings, but **Todd Guggiana** and **Jeff Grant** came through with big hits to pull out a victory in eight innings.

The Artesians stumbled in the quarter finals 2 to 1, but nothing can take away the memories of this Cinderella team of 1984. All league honors were gathered by **Guy Montgomery** (pitcher), **Jeff Grant** (1B), **Jim Rosas** (OF), and **Todd Guggiana** (catcher). This was truly a trying, but enjoyable, season for the "Team" and its supporters.

Strategies That Worked

Competitive was the key word for

the J.V. Baseball team. **Coaches Goddard** and **Raphael** used many combinations of players to form a unit which ended 13 and 10 for the season.

In the early part of the campaign, the youthful Pioneers were led by pitchers **Gunnar Seedborg, Scott Smith, Joey Brazil,** and **Ron Gossett.** As the league play began, it was the bats of **Steve Rott, Ron Flower, Shane May, Mike Fulop** and **Tim Armenta** which carried the team to many victories. The fine glove play of **Rod Benson, Ron Salts, Rob Axton,** and **George Franco** kept the Pioneers close at all times. Off the bench came solid support from athletes **Albert Hernandez, Tom Smith,** and **Bill Smith.**

Champions!

The '84 rookie crop looked good.

The freshmen athletes of Artesia topped off a great first year by winning the **San Gabriel Valley League** championship. By going 10 and 0, the young Pioneers took the title for the school's first time.

To be a winner in baseball, you need strong pitching. The flexible arms of pitchers **Brian Smith, Bill Karn,** and **Darren Bass** tamed the opponents. Strong defense to support the pitchers were infielders **Jason Armenta, Ken Serrano, Tony Henson** and **Bruce Roos.** Outfielders **Keith Wiley** and **Jack Williams** contributed with many fine catches. The key hitters all season for the **Frosh Pioneers** were catcher **Vic Matos,** outfielder **Jaime Deyoe,** and second baseman **Jeff Denham.**

Coaches Raphael, Bowcutt, and **Shoulders** took great pride in this team, and hope that they will continue to improve and contribute to the Artesia baseball program.

Play Ball

From the superior

coaching of **Mr. McHatton** the 1983-84 Varsity softball team came in first place tied with Mayfair.

To help them with their victories was the outstanding pitcher **Estela Gutierrez,** super clutch hitting led by **Carmen Martinez,** the good all around batter **Tammy Dupuy,** and great defense led by **Shelley Bowcutt.**

In CIF, the team lost to Glendale Hoover 3-0 in quarter finals. They beat Brea in second round 5-3, and beat St. Lucy's first round 3-1.

Catch It

The 1983-84 Junior

Varsity team could be thought of as two teams. The reason for this was because the team consisted of eighteen strong players.

Some of the players to help the team were the MVP on defense, **Melissa Eckroad,** MVP on offense, **Denise Quan,** and the overall MVP **Korey Forchione.**

"Due to a rash of injuries, we were unable to win," said coach **LaRosa.** The team finished second in league and lost the championship in the last game.

LET THE EVENTS BEGIN!

One thought that was probably in the minds of the track team members was "Let the events begin." As the girls' team came in the first in Suburban League and both the boys' team were Tri-champs.

The women's track team did exceptionally well this year. It had overall strength in all the events. Throughout the season the girls worked hard and by their markings going up they proved it payed off. There was only a few seniors on the team which means next year's team may prove to be promising.

As for the men's teams they did just as well. The Varsity team was strongest in the field events such as the shotput, discus, triple jump and also the 440 relay. Where as the frosh-soph team was strongest in the distances such as, the mile, 2 mile and 880. The teams improved throughout the season with the payoff being a victory over Norwalk. This year the underclassmen gained a valuable experience, giving them a good chance at a promising standing next year.

Get Set, Go

One could easily spot

the Artesia High Cross-Country runners practicing after school. Their grueling run of 4 to 8 miles a day went far beyond the required 3 miles needed for the meets. Although punishment led to rewards the victories were sometimes few. The girls' team was more victorious because they placed second in the league while the boys placed fifth. However, both teams showed substantial games in league finals by their respective second and fourth place standings. Had their season not been plagued by injuries, both teams would have had many more triumphs. The dedication and patience of **Coach Sandie** and **Coach Flowers** encourage the team through a challenging season.

Tennis Is Their Racket

Through spirit, teamwork,

and dedication this year's girls' Varsity and Junior Varsity teams proved that tennis is their racket. The teams had started off with a slow start but eager to learn they soon began to improve greatly. During practice each day the girls worked hard to achieve a good serve and a strong backhand which helped greatly during the matches throughout the season. The girls' challenging season did not compliment their efforts but future years prove to be promising for all of them. This year they were able to get valuable practice and develop better skills. Both teams were able to handle the challenging year because "Tennis is their Racket."

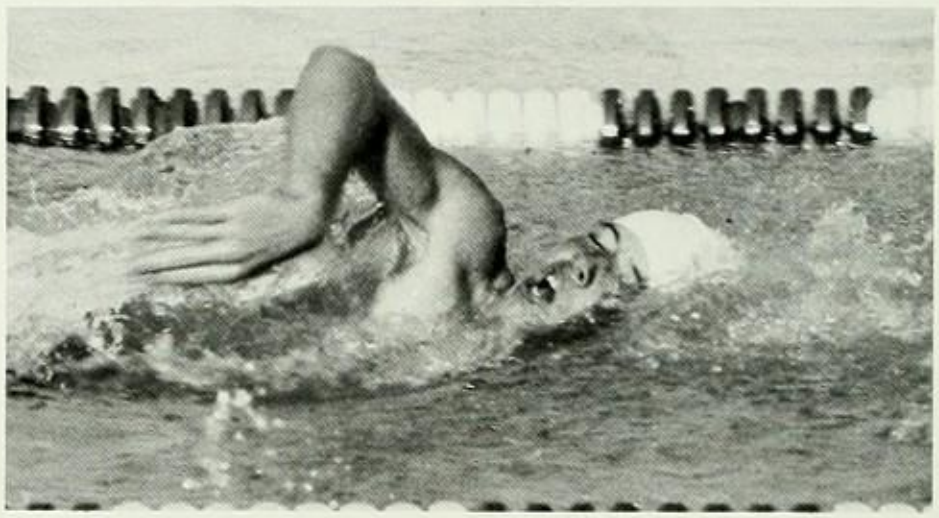
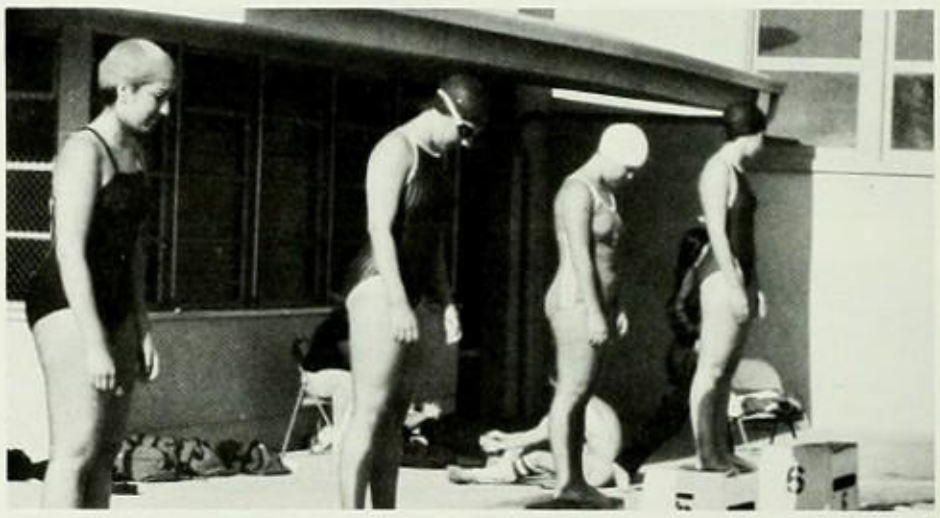
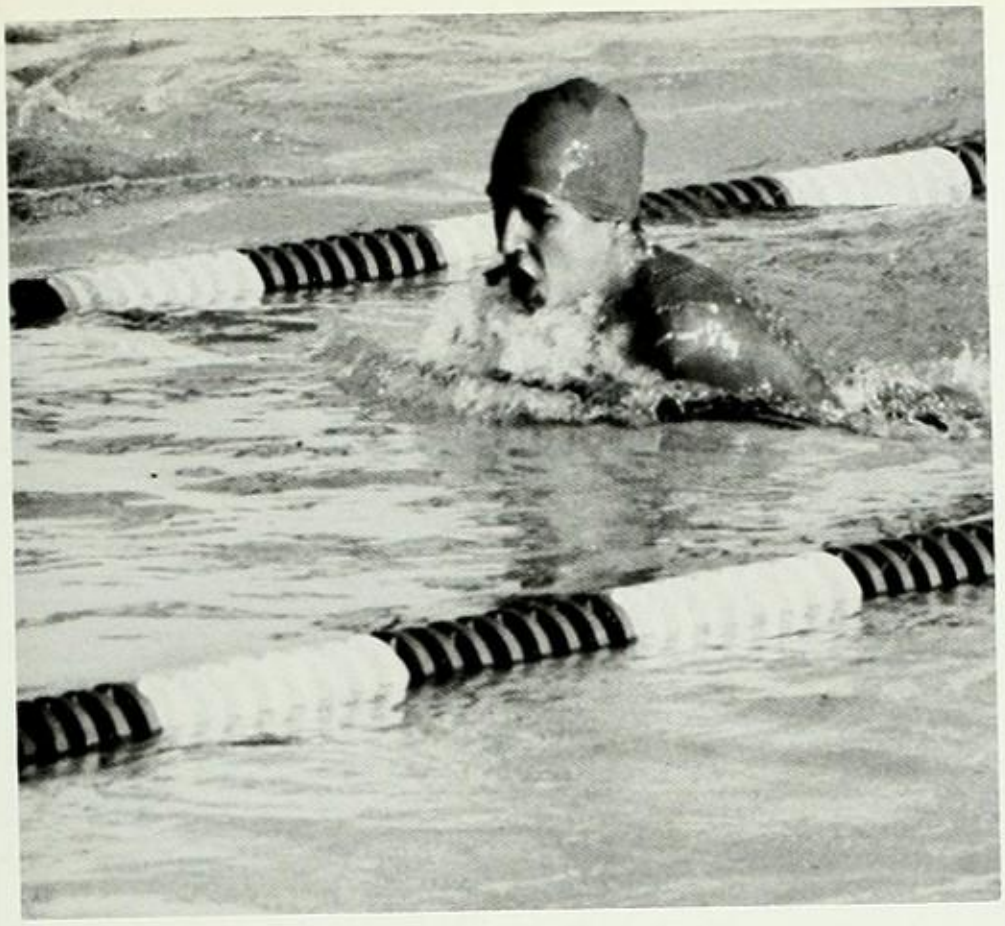
COMPETITION

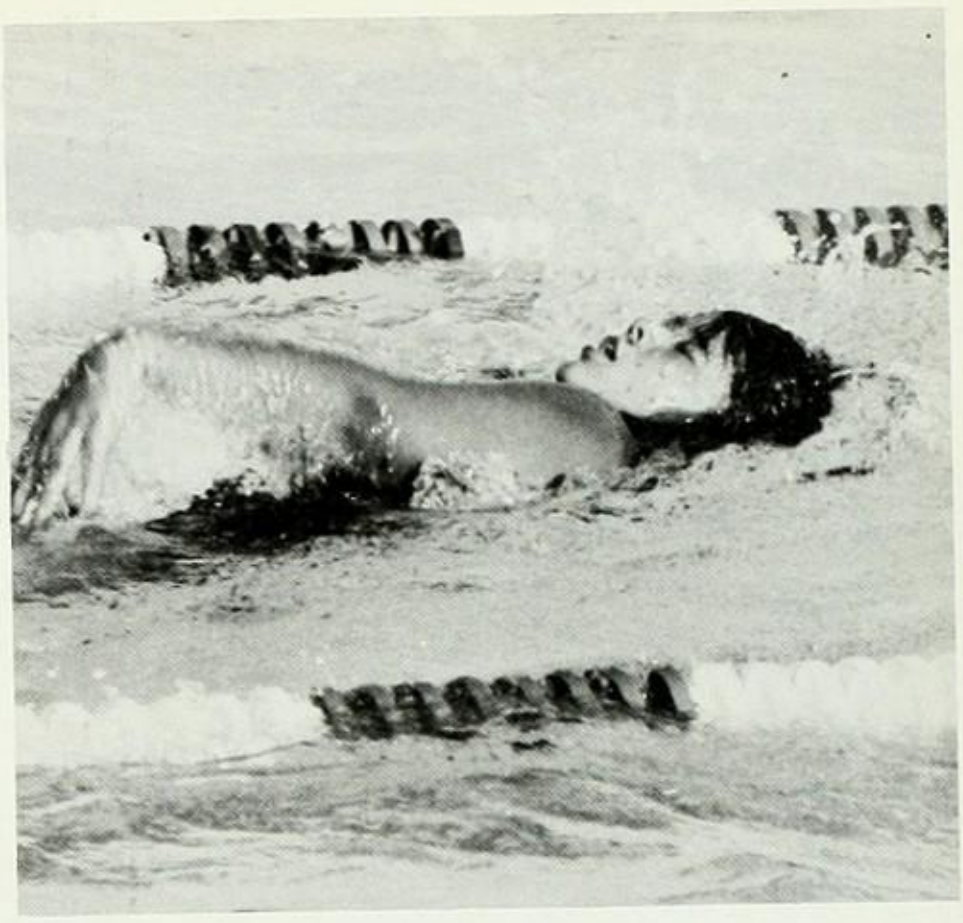
Serious training and hard

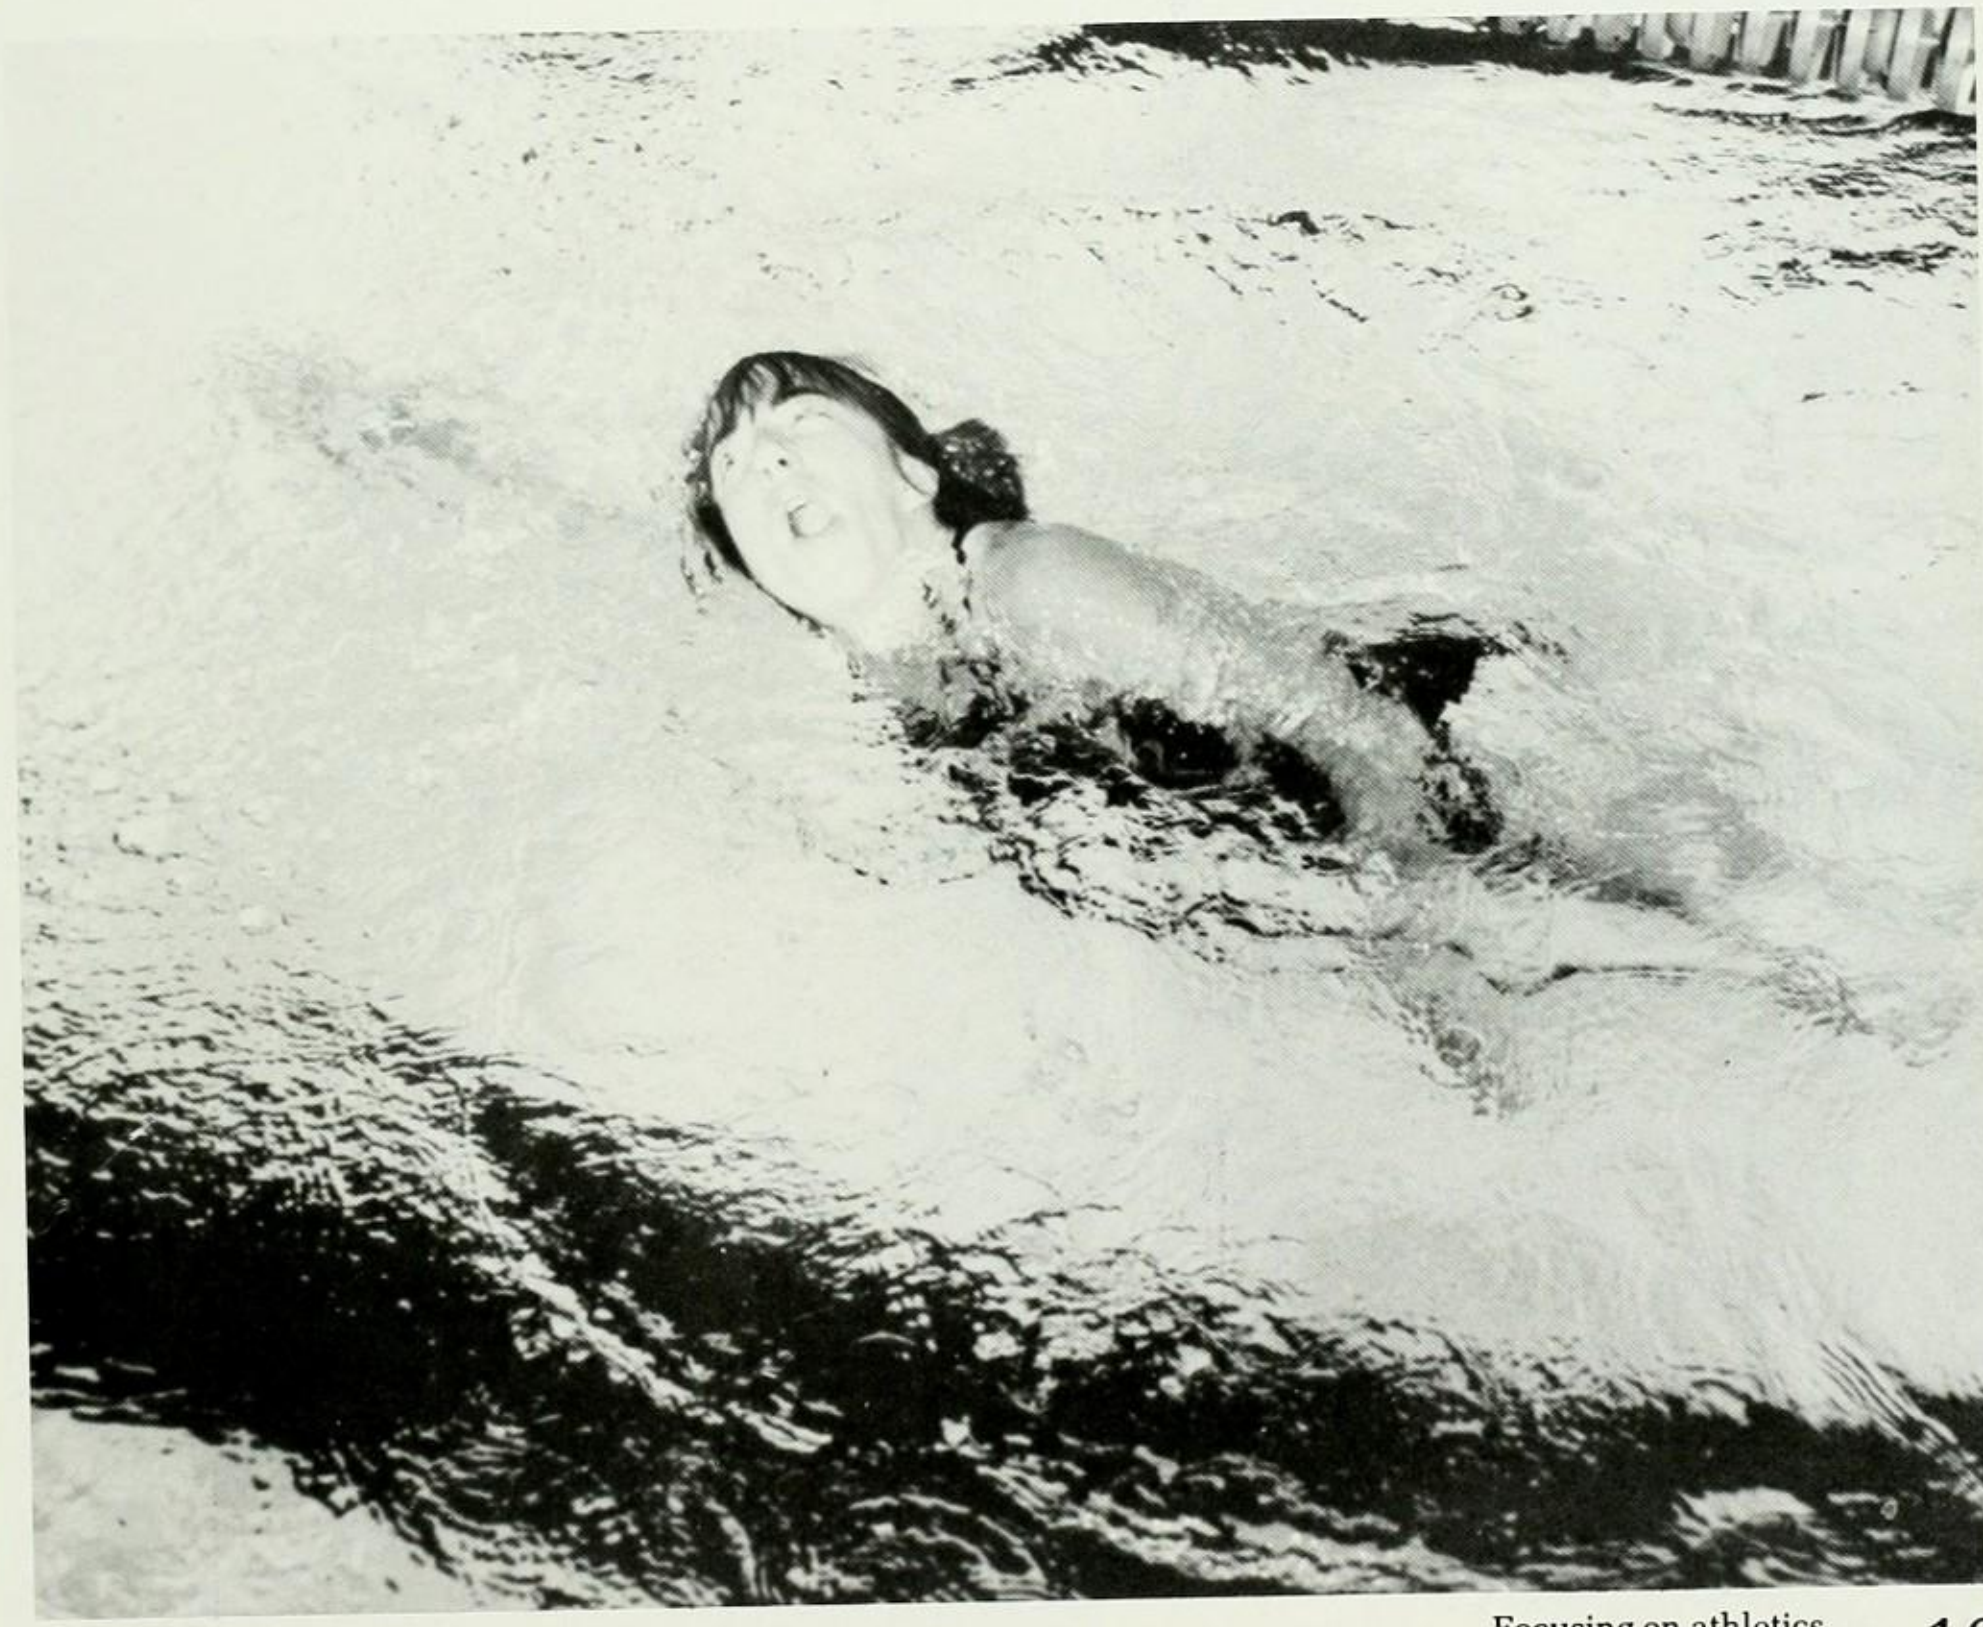
work are important in all sports, but to become proficient in swimming takes something extra. A swimmer must have an extra amount of stamina to be the best, and Artesian swimmers had just that. The Artesians competed as individuals and as a team in various pre-season events.











3 Sports in 1

Water polo

is a rugged, tough, exciting sport; which combines the coordination needed for basketball, the roughness of football, and all under the restrictions of water. This year, Coach Guzman recruited a first year water polo team. Despite their inexperience, several brave boys who had never played water polo before, came foreward. Also a new assistant, all American Omar Menchaca, arrived to put some of the strategy together. Sometimes facing teams with four or more years of experience, the pioneers fought with intense relentlessness and earned the respect of their opponents.

Teeing Off

This year's golf

teams had a trying season. They were placed in the 4A Moore League with schools like Milliken, Lakewood and Poly. Thus making the competition that much harder. The Artesians struggled but made it through the year with a little help from a returner named **Sidney Tsai** (best player).

In the words of coach **Curi,** "We have a very weak, inexperienced, young team. Wins are hard to come by but the future looks bright."

Good luck in the seasons ahead.

Artesias Top Modles

There we were

finally up there at the "top." Experiencing such Senior rituals as . . . exchanging Senior portraits and memory cards . . . taking the SAT . . . getting our scores back . . . taking it over again . . . filling out scholarship, financial aid, and college applications for some . . . suffering from terminal Senioritis for all . . . lets not forget about ordering Senior announcements . . . cap and gown . . . Senior shirts . . . Panoramic pictures . . . going to the prom . . . senior picnic . . . Ditch day . . . Grad Night . . . waiting . . . and waiting . . . and waiting.

How did we feel? Anxious, sentimental, happy, confused, restless, excited and maybe even scared. But what were we afraid of? Were we wondering if there really is "life after high school?" There we were at the end of a twelve year long path, wondering who we would walk with at graduation that final step . . . Graduation.

Seniors are . . .

Candid!

Alas here you have it, the Artesian

top models caught in the act of everyday life! And a busy one at that! Seniors, for the most part, took advantage of being on top of it all and for many this was too much to handle. We've come so far to get here but it took forever to get to the final moment. Whether we wanted to hold on to our years at Artesia with a firm grasp, or run down the road of life on to a bigger and better (?) world which lies ahead, whatever the case, we the Artesian senior class made a difference at Artesia High, and our "time" at Artesia made a difference in us!

You are . . .
You are the answer to all the questions that I ask,
You are the solution to all the problems that I have
You are the sun that hides all the rain,
You are the laughter that hides all the pain.
You are the pillow that I lie on,
You are the shoulder that I cry on.
You are the smile that hides all of my tears,
You are the hope that hides all of my fears.
You are my joys and my sorrows,
You are my todays and my tomorrows,

Srs. of the Month

Being a Senior of the Month is not an easy task. It takes tremendous hard work and dedication. A Senior of the Month must maintain a high grade point average, despite their trying academic courses. Extra curricular activities were an important part in the full schedule of these seniors, because they took pride in their school. Seniors of the Month were recommended by their teachers, counselors, and coaches as exceptional students. How's that for proving themselves?

Remember When . . .

Our freshmen year which started with enthusiasm. It was a whole new beginning on the Artesia campus. We won the first rally class competition. It was proved that the class of "1984" was a big part of the Artesia. We were on our way to show that we're number 1.

Remember When . . . We took a big further step into the Artesian's life. We were no longer the newcomers. Throughout the years, we were involved in various activities to show the pride of red, white, and black.

Remember When . . . We participated academically and socially to make the senior year more meaningful. The senior year was filled with good times, determination, and hard work. The senior class looked forward to Senior Award Night, Grad Night, and finally the Graduation. The great accomplishments came not through ease, but by facing and meeting many obstacles valiantly.

This Dream Will Last Forever.

The day was May 12,

8

1984, and this was no ordinary day. If you were to look around your neighborhood, you may have seen limosines, nice cars, formal wear, or you could have seen Harvey picking thorny roses and tying them with twine. About an hour later, Harvey gets into his car and quickly drives to Hermenia's and rings the doorbell. All at once you can hear the confusion inside; "Oh no he's here already; Mom help, my zipper's stuck, and I lost my shoes." Finally Hermenia came out with her florescent green dress, and they were ready to go to the Senior/Junior Prom: This Dream Will Last Forever, 1983/84. Once there, they discovered they had missed dinner (on account of being on the wrong freeway) but arrived in time to see **Rick Lozada** and **Luci Johnson** crowned King and Queen. Despite slight problems, the 1983/84 Prom was a success for Harvey and Hermenia.

Senior Picnic

What's a day away from

the classroom designed for entertainment only? Equipped with facilities to eat, play, dance, collect autographs, talk, laugh, and of course, hold egg fights (yes egg fights!). Why the Artesian football field, and the guests of honor you ask? Artesia's finest, that's right, the seniors of course! Seniors were nearing the end and boy what a way to celebrate!

Seniors and . . . Mickey

Grad Night 1984 was

filled with fun and excitement. Many Seniors enjoyed riding rides such as Space Mountain, The Matahorne, or maybe you enjoyed a more mellow and quiet ride with that special someone. Grad Night is a time to share the happiness of graduation. Oh, and let's hope no one forgot to get their souvenirs.

Seniors Are Rewarded

At last we got to model

Your caps and gowns in front of proud parents, teachers and friends. Did you guess graduation? Guess again! If you said **Senior Awards Night** you were correct! At this event, various Artesians were acknowledged for their efforts and achievements. Many grants, scholarships and trophies were accepted by seniors who proved that by applying yourself to something success is bound to follow. Seniors, you're a good act to follow!

Seniors Move on . . .

Wake up! Remember today's

Graduation practice. What a day it was . . . waking up early only to drive out to Gahr to practice at Rants stadium. Yet we noticed the growing excitement and/or apprehension amidst. We hurriedly passed around our memory books and class cards to soon-to-be-scattered friends. "Oh no, you mean I have to wait until 8:00 pm to get this over with?" you thought to yourself. But we managed to make it there in time to nervously assemble in the gym. An excited (and united) Artesian crew managed to make it to our seats. We prayed together and cried together, but most of all realized together that we were of Artesian breed and would always hold on to our Artesian memories.

Meet the Models

Bewildered,

breathless, and anxious, Artesian underclassmen watch out! As a freshmen at first you were confused, but soon got into the swing of things. You were eager to go to the football games, and dances were very much apart of this new "grown up" lifestyle; Although, you weren't as eager to recite Jaberwocky in front of your speech class. As a sophomore you were more content, but left breathless by resuscitation Annie. Many Sophomores were the proud owners of their new class rings. The most exciting thing for many was getting their Drivers License, (even though it was just a provisional). Along with your drivers licence, you gained more freedom, and your social life expanded. As a Junior you became anxious for your Senior year. Now when you walked down the halls, the teachers began to recognize you, by name. Remember the flash cards for English 3, to prepare you for the Scholastic Apptitude Test. Your Junior year you probally went out on your first official "date."

Juniors

Your Junior year was a

year to remember. This was the year you could finally invite someone to the Prom instead of someone inviting you. This year you realized just how much things meant to you, things you would be leaving behind. You've already taken Driver's Education and probably got your license and put it to good use by now. Some of us had to juggle a job, school and of course a social life. Whatever made your Junior year a special year it will always, surely be one to be remembered.

Sophomores

They were not seniors

yet, but they were not freshman either. They were the 500 students in the Sophomore class of 1984! They were the middle class, on top of all things, such as Driver's Education. Since they were no longer new students, they were no longer frightened of new clubs and new experiences. Most sophomores began to mature, realizing they were not children any longer, and could make their own decisions. These sophomores were eager to find the key to the doors of the future. They searched for knowledge and the know-how of success.

Freshmen

For the Freshmen, enter-

ing High School was like entering a new world. They came in concerned about how to find their classes, nervous about what the seniors would do, and how to understand new teachers. They were inexperienced in taking final exams, and having the responsibility of earning credits. As the weeks went by things became easier. They met new friends, found their way around, and got involved in school activities. The class of '87 has shown great spirit and support for Artesia.

Enlarging Our Minds Through Academics

Focusing in on . . . school,

doing our best, excelling, being recognized for our efforts, experiencing that self-satisfaction from our achievements, and the sorrow that came with our disappointments.

Alas, this was the life of the Academic Artesian. How did one manage to handle all those solid classes, hours of studying and homework, extra-curricular activities and still avoid ulcers? Good question! But many Artesians managed to do just that and we should be ever so willing to give them that little pat on the back.

These were the students who decided to make the most of their years here at Artesia, and what better way of making the most than doing your best? Yes Artesia was a great opportunity place to excel at. Our high academic standards and programs not only encouraged students to do their best but gave them the feeling that Artesia High was "up there" academically. Being selected as an exemplary school of California due to: an over-all improved grade point average, high CAP scores, higher percentages of Artesian graduates attending college, more Artesians enrolled in college prep classes, high participation in staff development, exessive curricular activity, and commendable involvement in community activities brought pride to the Artesian students, and in turn to their own acedemic progress.

An Unforgettable Event

It only happens once a year. An unforgettable event was held at Artesia High School. The Conestoga Award Night. Selected Artesians experience the thrill of participating in this special night. On this event, those who gave extra effort to their classes plus school services and activities were selected to be the nominees. The winners received certain awards such as trophies, certificates, medals, and of course one person received the Grand Conestoga Award. There was one trophy and two medalists in each category. The Grand Conestoga winner this year was **Kevin Smith** who had achieved a G.P.A. level beyond 4.0 all four years. His plans include to study Electrical Engineering at U.C.L.A. All in all, it didn't matter whether they won the Grand Conestoga Award, medal, trophy, or certificate. It will always be an unforgettable night to be remembered.

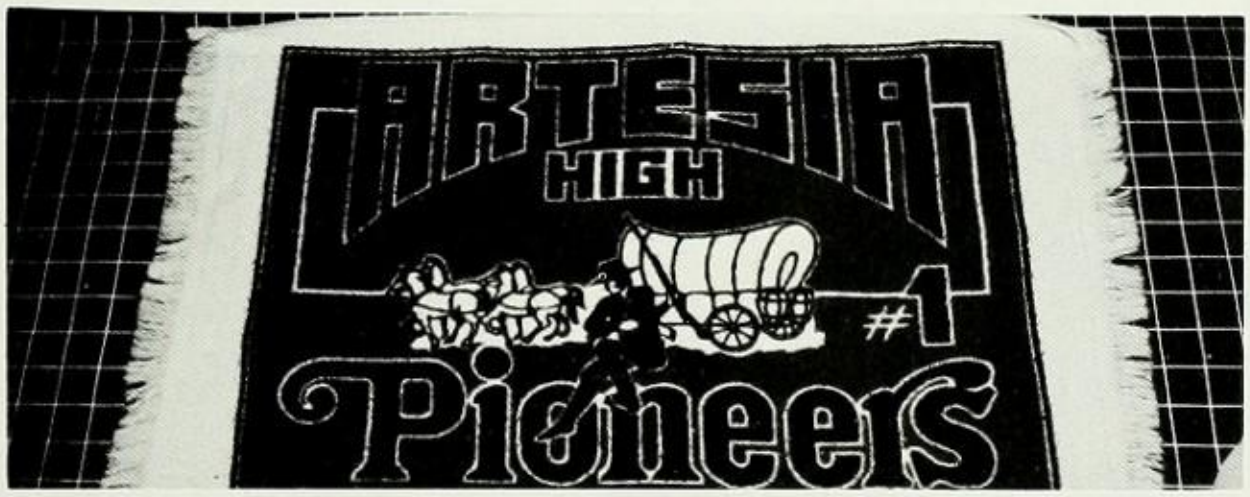
We're School of the Year!

As Dr. Eugene Tucker, Superintendent

of the **ABC Unified School District** pointed out, we have shown tremendous improvement in academic achievement with an increase in the number of students in **Advanced-Placement** courses and the number of students going to college and receiving scholarships. **Tim Murphy,** a consultant for the **Los Angeles County Office of Schools,** is the one who recommended us to the state, said, "The school has shown tremendous growth over the past four years in standardized test scores, especially in spelling and math." Our school's leadership and campus spirit have improved. The staff is also very interested in using high technology to educate students, including **Cable Vision,** interactive video and computers. **Artesia** also has tremendous community involvement at the school, more than one thousand parents attended our last **"Artesia Lights Up the Night."** We are very proud to be a part of **Artesia High School.** The students would like to thank **Ms. Mara Clisby** for her special talent to be an above average principal, and all the staff for 100% of support and help.



Right page: **1.** Intellectual minds at work in Chemistry class. **2.** Artesians study hard to improve their academic minds. **3.** Artesias' towels are a hot item, because Artesians are full of spirit. **4. Ms. Mara Clisby** says, "Darling I knew we could do it!"

Academic Associations

CSF is California

Scholastic Federation. In order to become a member, you must earn at least seven points in your academical classes each semester. New members are selected every semester. There were 105 altogether in the club this year. If you are a graduating senior and have been enrolled in the club for at least five semesters with one of them in senior year, you are announced as a Seal Bearer. It is an honor to be recognized as a Seal Bearer. The club provided the tutoring that was needed on campus and recognition to many individuals were awarded thru $2,000.00 in academic scholarships.

The Upward Bound Club

was an excellent program that was provided and sponsored by California State University at Long Beach. There were eighteen members on this campus this year. They were selected through applications with at least two faculty's recommendations and finally they were interviewed for acceptance. They had to maintain their G.P.A. of 2.5. or higher to remain in the club. The main purpose of this program was to increase the number of minorities in the colleges. The members took different classes in CSULB on weekends or during summer to get familiarized with the college atmosphere and to make the transition easier. The program had an 85% success rate.

Top Stories of 1984

The terrorist massacre of peacekeeping U.S. Marines in

Lebanon was the top story of 1983 by a vote of Associated Press newspaper and broadcast member editors.

The top 10 stories of the year had a heavy foreign flavor, reflecting U.S. concerns and actions overseas. No. 2 in the poll was the downing of a South Korean airliner by Soviet jets. No. 3 was the U.S. — led invasion of Grenada as part of a tougher Reagan policy in Central America and the Caribbean.

The U.S economy, which was the top story in the 1982 poll, ranked fourth in 1983 as inflation abated, unemployment dropped and deficits rose.

Editors turned overseas again for their fifth choice — the deployment of U.S. missiles in Europe and the breakup of talks with the Soviets. Sixth was the anti-nuclear protest in Europe and the concomitant freeze movement in the United States.

Three stories in the top 10 were solely domestic: The economy, the weather (9) and the resignation of Interior Secretary James Watt (10).

The list:

1. Marines massacred in Beirut terror bombing.
2. Soviets down South Korean airliner.
3. U.S. — backed invasion of Grenada.
4. American economy: Inflation down; unemployment drops; deficit rises.
5. Missiles deployed in Europe; Russians break off talks.
6. Antinuclear movement in Europe, nuclear freeze drive in U.S.
7. Lech Walesa wins Nobel Peace prize.
8. Menachem Begin resigns in Israel.
9. Weather: Winter storms, spring flooding, drought and hurricane plague U.S.
10. James Watt resigns as secretary of interior.

Runners-up included: "The Day After" and the impact of that television movie the split in the Palestine Liberation Organization; the Washington march commemorating Martin Luther King Jr.; the assassination of Philippine political Leader Benigno Aquino; the disappearance from public view of Soviet Premier Yuri Andropov; and the Australian victory in the America's Cup.

Votes were tabulated by awarding 10 points for a first choice down to one point for a 10th choice. Thus, the Lebanon-Marines story tallied 3,504 points to 3,442 for the Korean plane downing. The only close counts were 33 points separating the anti-nuclear story and the Walesa Nobel Prize and the 60 points between the Begin resignation and the weather.

Late Nights Behind the Cover

It is said the Artesians

actually originated from the **Olympia Brewing Company.** An Artesian was a creature that was known very little about. This encouraged curiosity in all the people who heard about these "**Artesians.**" Not to mention **Cindy Collins** and **Karen Morris.** They decided (along with their staff) to tackle the task of explaining to the **Artesian** population exactly what an **Artesian** was. They decided to do so in a publication called "the **Artesian**." This magazine was a year long assignment focusing on the **Artesian's** academics, extracurricular and social activities. Sound easy? Hardly!

Our year-long view included a year-long list of problems. Like losing half the staff due to failure to meet assignments and **Karen** and **Cindy** temporarily getting kicked off the staff because of problems with the underclassmen section. Ah yes, we learned that persistence pays off, and with the help of **Mrs. Clisby's** various "rescues", "the **Artesian**" arrived. So here you have it, our definition of "the **Artesian**." Sure hope we brought you a little more in focus!

Expressing . . .

On the new Express, M.G. tells all!

For the aspiring news magazine writers at Artesia High, it is truly a privilege to actually have a school paper to work on. Our previous paper, Focus, which consisted of approximately five consistent staff writers eventually deteriorated due to the apathy and lack of student body and faculty support. Therefore, in the school year of 1982-83, the Artesian campus experienced an entire year without such a publication.

Finally after realizing that Artesia was about the only high school in the district without such a publication, with help from Assistant Principal, **Nancy Krause,** and our soon-to-become advisor, **William Cowan.** Together we worked to revive our campus paper and staff; only this time it was called Pioneer Express. As a result of our efforts, Artesia developed a journalism class with well over forty students . . . a far cry from the previous five student staff. The enthusiasm of the entire staff has helped put forth a quality publication that well fulfills a news magazine's purpose . . . to inform and entertain. Pioneer Express, has restored, in some ways, the lost school spirit along with the support of the student body and faculty. The success of Pioneer Express was largely due to the fact that it was run almost entirely by the students, along with the supervision of our excellent advisor, Mr. Cowan, we had a great year!

Remember those buttons,

badges, creative posters, and eye-catching banners scattered around campus. This was all a part of campaigning for leadership. It was a lot of hard work just getting into leadership. Once you do get in though it's worth it. Whether you're student body president or a freshman representative, you had a lot of responsibility and trust put upon you. Leadership puts on the majority of school activities and dances. Every class unites together to make their activities a "hit." Leadership is a very important part of Artesia.

Sacramento Students

That moment came again

when two outstanding students were chosen by their counselor to represent Artesia High School for Boys' and Girls' State. Peter Lee and Tiffany Clark were elected to go on this exciting and memorable trip to California State University, Sacramento during the first week of summer. The also found the electorial process very exciting, because it was held just like a real state election. The steps are very complex and one mistake can cause disqualification. Elections such as running for office, voting on assembly bills and carrying out meetings at city and county levels were an exciting experience. Peter and Tiffany learned by doing. They got involved with government issues and experienced the slow process of change. They were impressed that anyone could run for an office, become involved in judicial issues and vote for the candidate of their choice. In Boys' and Girls' State each boy or a girl is assigned to a city area as a resident. They are divided into political parties; either Federalist, Whig, or Tories, rather than Republican and Democrat. They also developed their own party platform and discussed their issues which they had chosen. All of their elections was carried on according to the existing laws of California applicable to govern such elections.

THE ACTIVE ARTESIAN

Talk about

variety on the Artesian Campus, whatever your interests were there was probably a club for you. Some of the new additions this year were **La, Raza Unida** (meaning the united race), **Pet Assistance League** (P.A.L.), **Chinese Assistance,** and **Surfing.** Active clubs such as **Drama,** put on a number of successful plays. While **P.A.L.** helped helpless animals with projects like working at the cat house. **Special Friends,** another active club, pairs up youngsters from the local elementary schools with our Jr. and Sr. students.

Almost all Artesian clubs had one thing in common they had fundraisers such as: selling carnations, M&M's, suckers, renting booths at the carnivals, car washes, and fundraisers at **Artesia Lights Up the Night.** The reason behind such fundraisers was to financially support their cause. There were 19 clubs in all (all official but one) with club meetings ranging from twice a week to once a month.

OPENING NIGHT

Artesia High School has seen

many opening nights but this year tops them all. Artesia produced two plays, one was "You can't take it with you." A romantic comedy about two lovers who are kept apart by their families but in the end they decide to live their lives together. The other play was "1984" which was based on H.G. Orwells book by the same title.

Most of the cast was members of the schools **Drama** and **Thespians Clubs.** These clubs helped the members get a better view of a theatrical production. The clubs new advisor was **Mrs. Hulse.** She kept the year interesting and promising for the production.

ASSISTING CLUBS

Out of the many clubs on campus there were three

that specialized in assisting its members. They were **CAL-SOAP, French** and a new addition to the clubs section this year was the **Chinese Student Assistance.**

The California Student Opportunity and Access Program, **CAL-SOAP,** which was designed to motivate and prepare students to attend institutions of higher education. CAL-SOAP provided tutoring to its members in math, science, english, and math reading and also test preparations. The Members also participated in campus tours throughout Southern California. It also assisted in providing information about attending college to its membes.

The **French Club** was another club that helped you as it assisted you in learning about the French culture.

The club had field trips and other excursions that lead to a better understanding of the French lifestyle. The members had a love for a variety of French topics which led to an interesting year.

As for the new addition, **Chinese Student Assistance,** which like its name assists Chinese students. The members helped one another to overcome all difficulties they may have encountered in living, studying and mainstreaming in a very complex environment. The club assisted in maintaining needed chinese communities and it did so well that it has a promising future.

KEEPING IN STEP

One thing the Dance

Production did was that they were able to keep in step. The production was directed and supervised by Ms. Gerard. It was choreographed and directed by Ms. Naumescu and also Mr. Darren Brown. The production proved to be successful from the roar of the audience.

The production had a routine which consisted of all male members and the popular break dancing. The presentation of the routines ranged from the heavy metal to a breaking and popping look, which all came together to make it a success.

ENVIRONMENTAL CLUBS

Two clubs at Artesia could

be catagorized as environmental because of their purpose dealing with the environment we live in. We have the **Pet Assistance League,** a new organization and the **Horticulture Club.**

Horticultural is a club that provides an activity outside the class and lets you see the results of your work. In the club the members and advisor share a mutual interest in plants and their environment. The club endeavors to stress the relationship between man and his dependence on the **Botanical Community.** The club has had plant sales as fundraisers and they proved successful.

As for the **Pet Assistance League, P.A.L.,** it is one of the newer clubs on the campus and also one of the most active. It promoted an awareness concerning the welfare of animals. It offered the opportunity to everyone that cares about animals to gather and exchange ideas. It has raised money by having sales at Christmas and Valentines Day. The money raised was then donated to an animal related shelter. On a trip to the **Long Beach Zoo,** the club was inspired even more in their cause and got new ideas for future fundraisers.

GIRLS' LEAGUE

The Girls' League was

more of an organization than a club. It sponsored some of the more important events at Artesia, such as, the Christmas Dance "Winter Roses," which turned out to be a success. It also picked and sponsored the seniorella and seniorfella of the month. They were able to have a few other fund raisers, which made their year a prosperous one.

The purpose of Girls' League is to promote a high standard of leadership, appearance, and conduct within its members. It also develops the interest in school activities and further the spirit of friendship.

INTERNATIONAL CLUBS

At Artesia we have many different nationalities and

this may be why students joined such clubs as **Hwa-Rang, Raza Unida** and the **International Club.** They may have also joined to become friends with someone from a different culture and to also get familar with different lifestyles.

A new club that began during the year was **Raza Unida** which in Spanish translates "Race United." The club provided encouragement of the student body and promoted unity among all. It was one of the only clubs with a high chicano participation. It had socials and fundraisers that proved the future the club is promising.

Another international club is **Hwa-Rang,** which in Korean means "Flower Youth." The purpose of the club was to promote friendship and mutual understanding between Korean speaking and English speaking students. During the year the club had fundraising activities and every year also sponsors a Korean basketball team to visit Artesia.

One club we cannot forget is the **International Club** itself which was one of the largest clubs on campus. The club was for students who wanted to meet and make friends with people who had different lifestyles and backgrounds. The members were able to observe and appreciate the different cultures in the club also. It had fundraisers activities which were successful because everyone worked together.

CHORAL CLUB

The Choral

Club could be thought of as one of the loudest clubs to be heard on campus. The club did not always go around yelling or screaming but instead they sang in perfect key. The club enabled the members to have fun while they sang. It also helped them learn how to perform at a concert. During the year the club had fund raisers such as car washes, bake sales, and one of the more popular ones was when they showed their skills and sold singing Christmas and Valentine cards.

SKILLFUL ORGANIZATIONS

There were two

organizations on campus that were more skillfull than anything else. One organization was the Mountaineering Society which took members on rock climbing trips. The other organization was the Surfing Club which took to the ocean for their skill.

The Mountaineering Society proved again to be a success with four trips. The trips were in November, February, March and May. The participants were taught the basic skills of rockclimbing, such as falling and rapelling. Some recreations for the weekend were volleyball, hikes, joke-telling, and Mr. Noble's chili.

As for the Surfing Club, it was a new organization on campus. One thing that all members shared was a mutual interest and enjoyment in the skill of surfing. Most of the members during the year would get together and go to the beach and spend a few hours of enjoying surfing.

CREATIVE CLUBS

The *Silk Screen* and *Art*

Club of Artesia High are perfect examples of creative clubs. Both of these use their imagination and artistic talents to help them turn out their finished projects.

The **Silk Screen Club** was based on producing and selling its production. It designed and printed its own emblems which could be printed on a piece of clothing that you desired for a small fee, this making the printing itself a sort of fundraiser. They also had another fundraiser during the year selling candy. The money raised was used to purchase items for the school that capital outlay wouldn't allow. The fundraisers and the production from silkscreening made it a successful year.

The **Art Club** was to further the members interest in the commercial and finer arts. It provided areas of specialization that was not offered in regular art classes. The club designed and made posters, brochures or illustrations that were needed by the school, in doing so they showed their support for Artesia High.

ATHLETIC CLUBS

Two athletic clubs at Artesia High were the **Mat Mates** and the **Volleyball Club.** They both had fun in what they did even though they dealt with athletics differently.

The **Volleyball Club** plays its games for the enjoyment of its members. The members consisted of the Varsity and Junior Varsity team members.

Mat Mates was a club that supported the wrestling program. The members were willing to give up some of their time to assist the wrestling matches. The members were willing to take stats and run the snack bar as a means of assistance.

Mat Mates and the **Volleyball Club** may have been based on different bases but they were there to have fun.

SPECIAL FRIENDS

Artesia High School *Special Friends*

is made up of students who volunteered their time on an ongoing basis with selected elementary school pupils in the district. They were part of a district organization of Special Friends and attended a special training seminar during a retreat in the mountains early in the school year.

They planned and carried out activities with the elementary school pupils and visited or contacted the elementary school of the younger pupil on a regular basis. Special Friends and their young friends have participated in many activities together during the year including trips to the park, beach, zoo, sporting events, shows and library.

Participation in Special Friends has resulted in the enrichment of the academic and social well-being of both the high school and the elementary pupils.

Look Who Is Doing the Developing

The Artesia High School

faculty had great goals of raising it's academic standards. They wanted to increase student test scores and a decrease in student drop-outs. One way they tried to improve was by the back-to-basics movement. This meant more reading, writing, and homework issued out. Not only more basic work like math, and english, but all this work helped the students to improve their reading, grammar, writing, spelling and other subjects. With all this work the students were able to get high grades on their tests.

The honor of being nominated for best school of the year gave the developers recognition for their various constructive developments.

The Artesian developers pledged to take definitive action to bring about improved educational programs. We have as a district, traditionally involved hundreds of teachers and staff members in the development of curriculum, selection of textbooks and curriculum materials, in serviced training of staff members, and raising of expectations for our students . . .

Constantly Busy

Students, at Artesia, were challenged by

required high standards of career choices and institutions of higher learning. In order to meet those standards, requirements were increased from 200 to 220 credits. The additional units were taken in Math, Science, and Fine Arts.

However, Administrators and Counselors encouraged all students to improve their academic skills. To help students meet those requirements, their assistance was essential.

Keeping a large school running sufficiently

takes a lot of hard work. That hard work came from the Administrative Staff. Taking care of the phones, files, typing, and paper work, not to mention all the help they gave faculty and students throughout the year, shows us how rewarding a team effort can be.

Reliability

School is a place to learn at.

It is a place to get knowledge and understanding. But to get these things you need reliable teachers. Teachers who you know will sit down and explain a lesson over again if you do not understand it. You need people who really care. Reliability is one word that can be used for our Artesian Staff.

Knowledge

To get a good education students need

Knowledgeable teachers. Teachers who have a wide background of learning. They not only have their major but many more skills as well. Knowledge can make a big difference in the outcome of a student's education.

Communicating

Communication is getting a message

to another person, whether it be speaking, sign language or signals. One thing that every school needs is communication between teacher and a student. If you do not have communication between the two parties then you can not get a message through to the other person. Because Artesia teachers and students have such good communication between each other that makes our school one of the best in California.

Patient

Learning at Artesia is made possible by

patient teachers. These patient teachers take time out of their busy schedules to help students comprehend our studies. Students at Artesia High should be very thankful to have such a wonderful, caring, and patient staff.

Greatly

Artesia High has a great staff.

They contribute a lot to a student's education. Everyone knows though, that a little help is needed once in awhile. This is where our wonderful Adult Aides come in. They do everything from typing, filing, and organizing to working with students on a one to one basis. Their help is greatly needed and appreciated.

And They're Off . . .

Setting: the Artesian parking lot. A home for a

variety of different means of transportation. Waiting, yes always waiting, for their owners to return and steer them towards their destination. Whether it's the same place every day or a new adventure, our cars were our means of transportation, and also a reflection of our own personalities. Whether you were the proud owner of a sports car, cute little VW, or a clunker, it was yours (unless, of course, it was mom's and/or dad's unused toy). They all shared one thing in common: they all were a very important part of life for the Artesians and feeling needed made their wait all worth the while!

Lazy?

You let out a long, drawn

out yawn, now don't forget to stretch. Whew, that test is finally over and was that exhausting? Well considering the amount of energy used up studying for it, you should be ready to enter a 10k marathon! But you been bit and there's no stopping you now, you've got that bug terminal laziness or better known as "spring fever." Yes, it's hot outside but does that mean you had to grab your bathing suit and head for the beach because you forgot about that big biology test? And let's not forget the sacred telephone, our escape from the world of obligations and responsibilities into that world of gab! At least then you could recuperate as you call it. As you took a look around the Artesian campus during these last final weeks, you realized you could keep counting the days and take it easy, or pass!

SUMMER SCENES

When you think of

summer, you usually think of the beach fun and the opposite sex, but there is more to a summer. Such as a summer job, to get a little extra spending money, or maybe summer school, to catch up or just to enlarge our minds. Many Artesians such as cheerleaders, football players, and band came to school to condition and get ready for the big football season. And let's not forget the annual staff who had to come back and finish this yearbook. A really spectacular thing about this summer was that the 1984 summer olympic games were held in Los Angeles.

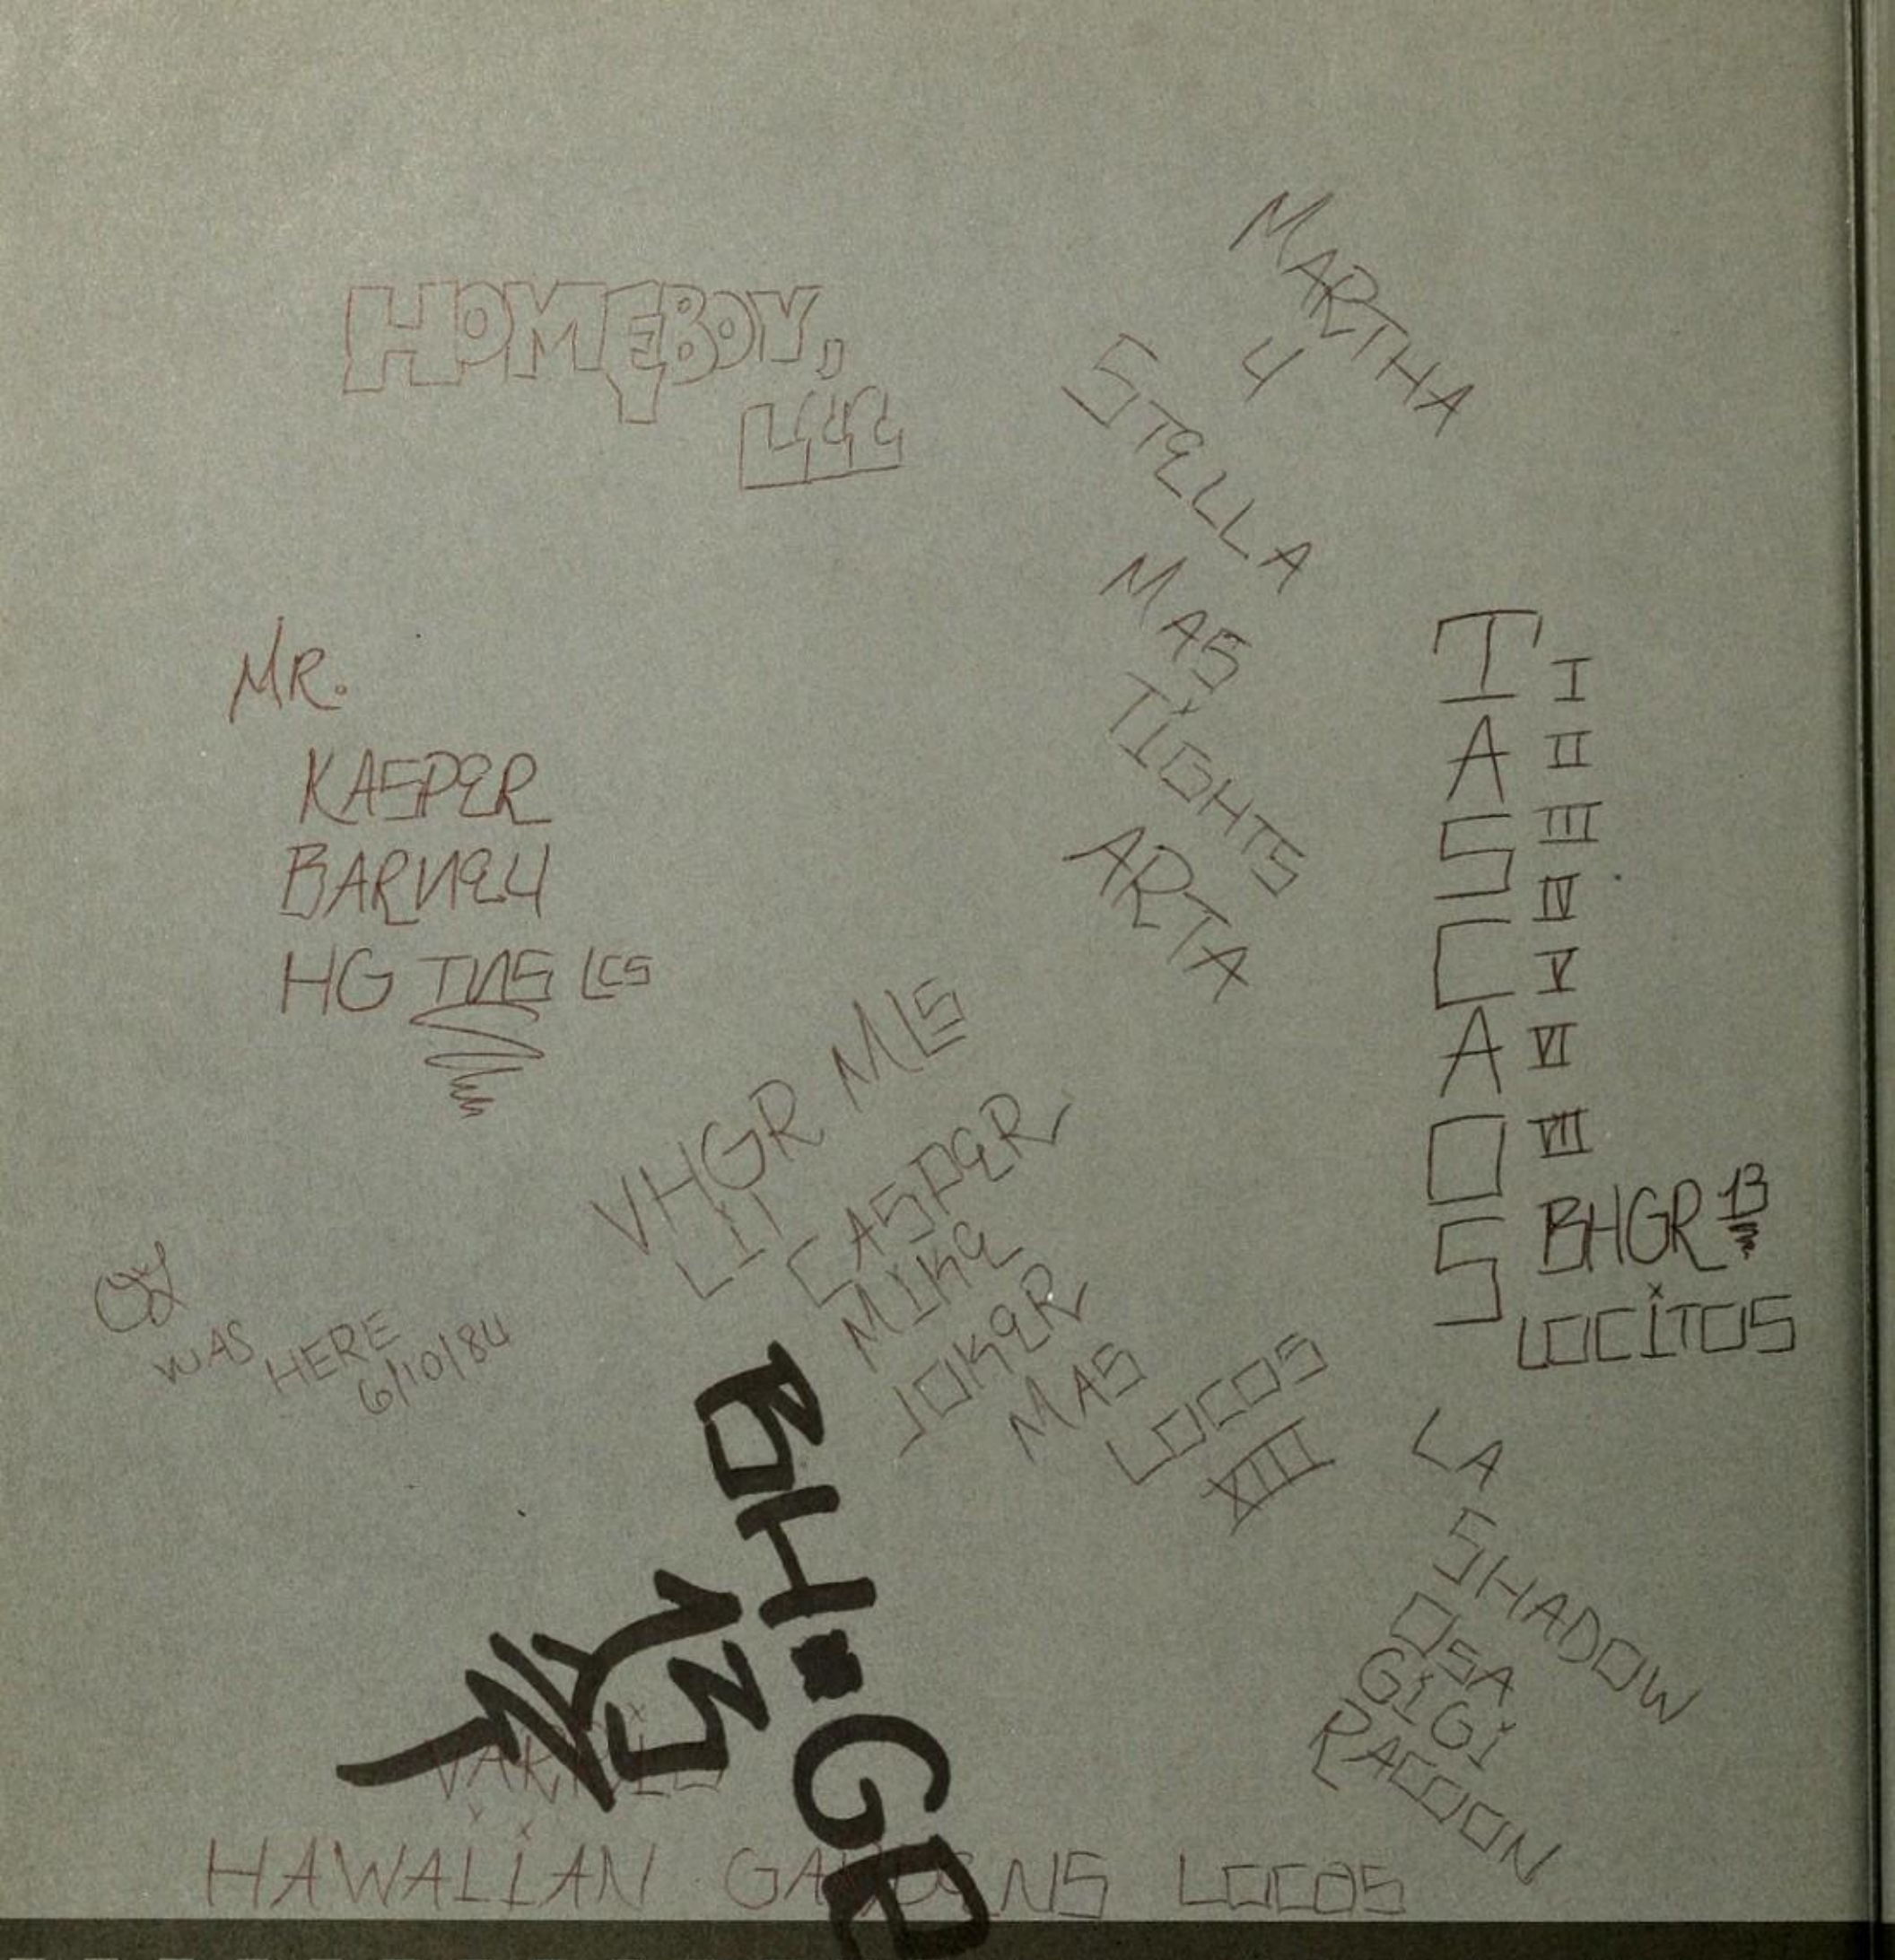
IN LOVING MEMORY OF RONALD BRYAN

We have all walked through the hall of the 600 building. In this building there is a classroom, a room filled with students, desks, books and a teacher teaching science. Yet, there is an emptiness and an unoccupied space. It is not Mr. Bryan's room that is unfilled, it is the small, special space in the hearts of Mr. Bryan's friends. May that space be filled and occupied with memories and thoughts of him forever.

We, the Artesian Staff, would like to dedicate our efforts to the memory of Ron Bryan, a man who dedicated 30 years of his life to us . . .



We're Focusing on
